Cameron T. Watkins

E-Portfolio ♦ 409-504-5185 ♦ Cameronwatkins46@gmail.com ♦ GitHub

A versatile frontend developer with a passion and commitment to developing scalable, efficient, and user-friendly applications. Proficient in a number of technologies including React and Typescript while also eager and willing to take on and learn new tech and methodologies.

TECHNICAL SKILLS

Languages: HTML5 | CSS3 | JavaScript ES6+ | Typescript

Frameworks: React(+ hooks) | Next.js | TailwindCSS

Tools & Technology: NPM | Git | Yarn | React Dev Tools | Firebase v9 | GitHub | Netlify | Vercel Vite | Figma

EXPERIENCE

Frontend Developer Internship | Certificate   **Sept 2024 - Current**
Frontend Simplified
- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels, to provide a seamless and intuitive user experience while naviagtating the app
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing, enhancing the overall efficiency of the webpage and providing an engaging loading experience
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment, allowing insight through pull requests to reduce the amount of potential conflicts when merging code

Frontend Developer Support   **Aug 2024 – Current**
Frontend Simplified
- Supported 100+ students like myself using HTML, CSS, JavaScript, and React best practices
- Utlized debugging best practices using Google Chrome inspect element tooling
- Simplified complex programming concepts including responsive website development, CSS layout, Promises, and API requests

PROJECTS

Spotify Clone | Website | GitHub
- Developed a fully responsive music app using Tailwind CSS and React.JS that includes pagination, audio playback, and next/previous song functionality.

[Week 6 Final Project] | Website | GItHub
- Developed a fully responsive movie search engine web app using React.JS that includes pagination and an API integration via IMDB movie database.
